Jim Killen

"My career as an Artist has brought so many wonderful people and opportunities into my life and I am forever grateful to God for that gift! I love what I do and hope my paintings capture a cherished memory or bring a sense of joy to those who view them." –Jim Killen

As a dedicated conservationist and avid sportsman he merges his passion for the outdoors into every facet of his life. Jim spends hours with his camera recording the beauty and serenity of the great outdoors with his own sporting dogs by his side. His affection for their spirit and loyalty is readily seen in the intimate dog portraits that have earned Jim the reputation as one of the great dog artists in the world!

Sherry McCartney

I'm a farm girl born and raised in Southern Minnesota and am married with three grown sons. Loved photography from a young age and continue to hone my skills each time I push the shutter button. I started taking wildlife, landscape and flower pictures during the years we lived in Colorado. I switched gears when our boys entered our lives and spent years taking photos of their adventures as they grew up. When they finished high school, I returned my focus back to nature again I am absolutely in awe when I am out shooting all of the beauty God has created for us to enjoy!
